Milwaukee Fly Limo provides chauffeured airport car service and limo transportation in late-model luxury SUVs across Milwaukee, the suburbs and the Chicago corridor.

For appointment holders planning an early weekday appointment in the Chicago Loop, confirm check-in time and the building's practical pickup point before choosing the final pickup time.

## Use the road estimate for the right endpoints

Use the check-in instructions to find the real arrival deadline. Put the street address and suite in the trip details so the rest of the plan has a clear destination. Traffic often changes the drive time between Chicago and Milwaukee. Estimate from your own pickup and destination addresses before setting a schedule. Give the road portion its own margin when you have a hard arrival deadline.

## Choose the departure you can actually make

Downtown Milwaukee to the Chicago Loop is about 92 miles, mainly on I-94, about 1 hour 45 minutes to 1 hour 55 minutes without traffic. Choose a Milwaukee Milwaukee Fly Limo pickup point that is easy to identify before shops or offices open. Give travelers the same meeting instructions the night before. Build in the time it takes for people to gather, load and leave. A preference to leave early only helps when everyone has the same date, time and meeting point.

Recheck the route and weather close to departure. A road delay may shift the window you thought you had for a stop, so agree in advance which optional part of the day you can move.
