1. **A Bet Spot:** One of the wheel numbers or reward video games.
2. **A Multiplier:** A multiplier value varying from 2x up to 50x.

Massive Multipliers.

1. Coin Flip

The easiest and most frequent perk round. The host steps up to a maker that flips a coin with a **Red** side and a **Blue** side.

- Before the flip, random multipliers are appointed to each side of the coin.
- The coin is instantly turned, and whichever side lands face-up determines the winning multiplier for the getting involved players.

2. Cash Hunt

This transforms the screen into a massive interactive shooting gallery featuring a screen with **108 random multipliers**.

- The multipliers are hidden behind different signs (like a cactus, target, chef's hat, etc) and then shuffled.
- Players are offered a crosshair to aim and fire at a sign of their option before the timer runs out.
- When time ends, all signs expose their hidden multipliers, and players get the multiplier corresponding to the target they shot.

3. Pachinko

Motivated by the standard Japanese arcade video game, this benefit round happens in front of a big physical wall filled with physical pegs.

- At the bottom of the wall are different multiplier zones, along with an unique " **DOUBLE**" zone.
- The host drops a puck from the top of the wall. As the puck bounces randomly down through the pegs, it eventually lands in among the multiplier slots at the bottom.
- If the puck arrive at "DOUBLE," all multipliers on the board are doubled, and the host drops the puck again for an even larger reward.

4. Crazy Time

The supreme bonus offer round takes players behind a red door into a dynamic, virtual, Alice-in-Wonderland-style world featuring a colossal 64-segment wheel.

- Gamers must choose among 3 flappers (Green, Blue, or Yellow) at the top of the wheel.
- The host presses a giant red button to spin the wheel.
- The wheel includes enormous multipliers, "DOUBLE," and "TRIPLE" sections. If a flapper lands on a double or triple, all multipliers on the wheel are multiplied accordingly, and the wheel spins once again. This can duplicate up until an incredible **20,000 x max multiplier** is reached.

Techniques and Approaches for Players

Due To The Fact That Crazy Time is ultimately a video game of opportunity controlled by Random Number Generators (RNGs) and physical mechanics, no method can guarantee a win. However, gamers usually approach the video game using a couple of distinct styles:

- **The Bonus Hunter Strategy:** Placing smaller sized wagers solely on the 4 bonus offer rounds (Coin Flip, Cash Hunt, Pachinko, Crazy Time). This method accepts frequent droughts in exchange for the chance to take part in the video game's highest-paying rounds.
- **The Balanced Approach:** Spreading bets throughout both numbers and reward rounds to guarantee a mix of constant gameplay and access to high-value reward features.
