At its core, **Crazy Time** is a live dealer game built around a huge, vertically installed 56-segment money wheel. Hosted by charismatic speakers in bitz.io a vibrant, Willy Wonka-esque studio, the game is transmitted in real-time with high-definition video and immersive audio.

Unlike standard gambling establishment video games dictated strictly by computer algorithms, Crazy Time depends on a human host to spin the wheel and interact with the audience by means of live chat. However, the addition of a Top Slot multiplier above the wheel on every single spin keeps the gameplay vibrant and unpredictable.

Coin Flip

This is the simplest and most regular reward round. The host steps up to a device that flips a coin with a **Red** side and a **Blue** side.

- Before the flip, random multipliers are designated to each side of the coin.
- Whichever color lands deal with up figures out the winning multiplier for all players who bank on Coin Flip.

Cash Hunt

Money Hunt takes players to a massive digital screen including a shooting gallery filled with 108 random multipliers.

- Each multiplier is hidden behind a various symbol (such as a cactus, target, or chef's hat).
- Players are offered a minimal time to aim and fire a cannon at a sign of their option.
- As soon as time expires, the concealed multipliers are revealed, and each gamer receives the multiplier behind their picked target.

Pachinko

Inspired by the conventional Japanese arcade video game, Pachinko features a large physical board filled with pegs.

- The host drops a radiant puck from the top of the board.
- The puck bounces randomly down through the pegs till it lands in one of several multiplier slots at the bottom.
- If the puck arrive at a **"Double"** worth, all multipliers at the bottom of the board double, and the host drops the puck once again for even larger wins.

Crazy Time

The holy grail of the video game, the **Crazy Time** bonus round, leads gamers behind a red door into a vibrant, surreal virtual world featuring an enormous 64-segment wheel.

- Gamers need to pick among three flappers: **Green, Blue, or Yellow**.
- The host presses a huge red button to spin the wheel.
- Whichever section the selected flapper points to is the multiplier the player wins.
- Similar to Pachinko, this wheel includes **"Double"** and **"Triple"** sections, which can send multipliers escalating approximately the game's maximum limit of 20,000 x or 25,000 x.
