Understanding CS: GO Cases

CS: GO cases are locked containers that can be opened using a specific key, each purchasable from the in-game shop or from third-party markets. Each case contains a random choice of skins, ranging from typical (Consumer Grade) to ultra-rare (Knife or ★). The contents are governed by a drop-rate table that is openly documented, permitting buyers to determine the statistical possibility of getting any particular rarity.

Cases are released in waves, frequently connected to significant game updates or seasonal occasions. A few of the most iconic examples consist of the *CS: GO Weapon Case*, the *eSports 2013 Case*, and the *Operation Wildfire Case*. Each case has a distinct essential cost, and the expected worth of its contents can be calculated by multiplying the marketplace cost of each skin by its drop-rate likelihood.
