In this variation, instead of a rocket or a jet taking off into the stratosphere, players view a trusty angler cast his net deep into the water. As the net sinks, a multiplier starts to tick up, beginning at 1.00 x. The objective is basic: squander before the net gets snagged, breaks, or the catch swims away. If gamers squander in time, they win their stake multiplied by the existing value. If the game "crashes" before they cash out, the bet is lost.
