For years, the *Big Bass* series by Pragmatic Play (in partnership with Reel Kingdom) has actually controlled the fishing-themed slot category. Nevertheless, with the release of **Big Bass Crash**, the developers took a huge pivot, stepping away from conventional reels and paylines to accept the hectic, high-stakes world of crash betting.

What is Big Bass Crash?

At its core, **Big Bass Crash** is not a basic slot device. Instead, it belongs to the "burst" or "crash" game genre popularized by titles like *Aviator* and *Spaceman*. There are no reels, no scatter signs, and no paylines.

Instead, the game includes a central character-- the familiar bearded fisherman-- venturing out onto the water in his boat. As the boat moves forward, a multiplier begins ticking up from 1.00 x. The goal is basic: **money out your jackpots before the boat crashes or the net breaks.** If you cash out in time, you win your stake multiplied by the present value. If you wait too long and the game "crashes," the bet is lost.

Among the most innovative functions in Big Bass Crash is the capability to secure half of your earnings while letting the other half trip.

Big Bass Crash includes a live chat feature on the side of the screen, enabling gamers to commemorate wins and sympathize over early crashes together. In addition, an in-depth history bar displays the results of previous rounds, helping players track current trends (though previous results do not influence future results).
