- *Caution:* This needs a substantial bankroll and can quickly tire funds if a long losing streak happens on high-risk settings.

2. The Steady Grind (Low Risk, High Rows):

- *How it works:* Setting the danger to "Low" and the rows to "12-- 16." This decreases huge losses while giving the gamer a steady stream of little wins, keeping them in the game longer with a chance of unintentionally clipping a good multiplier on the edges.

3. Flat Betting with Auto-Play:

- *How it works:* Setting a rigorous budget, choosing a comfy bet size, and letting the auto-play function run for a set number of rounds. This removes psychological decision-making from the process.
