The premise is simple:

2. **Players place a couple of bets** before the round starts.
3. **The objective is to cash out** before the plane randomly flies away.
4. **If the plane flies away ("crashes") before squandering**, the player loses their stake.

The enjoyment originates from human psychology: do you cash out early for a modest, ensured win, or do you hang on to enjoy the multiplier skyrocket, running the risk of a total loss?
