 - **Skins:** Depositing CS2 weapon skins directly from their Steam inventory to a bot handled by the site. The site values the skin, crediting the user's account balance with a comparable amount in website coins or GBP.
 - **Cryptocurrency/Fiat:** Depositing conventional currency by means of credit card, e-wallets, or cryptocurrencies like Bitcoin, Ethereum, or GBPT.
3. **Playing:** Users utilize their balance to play games or wager on matches.
4. **Withdrawing:** If a gamer wins, they can withdraw their balance either by purchasing brand-new CS2 skins from the site's marketplace or by cashing out through crypto/fiat (depending upon the website's policies).
