At the end of a lesson, ask the teacher to choose one short passage or https://education.clickdo.co.uk/online-quran-tuition-launches-new-online-islamic-studies-childrens-course/ letter pattern for practice. Write down the page and the precise point to revisit. A note such as ‘pause here and let the teacher model the sound again’ **online Quran tuition UK** gives the next lesson a clearer starting point than a general instruction to practise more. Invite the learner to mark one question of their own.
