What is a CS: GO Case Battle?

A case battle is a multiplayer game mode hosted on third-party CS2 skin betting and trading sites. Unlike opening cases alone in the game customer, a case battle enables multiple players (normally in between two and four) to open the exact very same set of cases simultaneously.

The guidelines are easy:

1. **Buy-in:** All participants contribute a set amount of cases, funded by their site balance.
2. **The Drop:** The system opens the cases for all players round by round. Every item dropped is given a real-world monetary worth based on Steam Market or third-party rates.
3. **The Winner:** At the end of the battle, the overall value of all skin drops for each gamer is determined. The gamer with the highest total value wins **all** the items dropped in the match, including those of their opponents.

If you are fortunate, you can leave with double, triple, and even ten times **cs2skin.com** your initial buy-in. If you lose, you lose the expense of the cases.
