What is the Aviator Casino Game?

At its core, Aviator is a social multiplayer crash game. The main theme focuses on a red plane removing and rising greater and higher. As the plane climbs up, a multiplier coefficient [Aviator](#) increases, beginning at 1.00 x and in theory climbing without a ceiling.

The objective is basic yet agonizingly tense: gamers should place their bets before the round begins and **squander** before the airplane flies away. If a gamer cashes out successfully, their stake is multiplied by the existing value on the [Kenya Aviator Game](#) screen. However, if the aircraft flies away (crashes) before the gamer squanders, the bet is lost.
