What is Crazy Time?

Players put bets from their devices while connecting with the host and fellow players through a live chat function. The main objective is easy: predict which section of the wheel the flapper will stop on after a spin.

The Anatomy of the Wheel: Segments and Payouts

The Crazy Time wheel includes 54 sectors. These segments are divided into number bets (1, 2, 5, and 10) and four unique bonus offer rounds. Each number represents its payment multiplier if landed upon.

The Top Slot Feature

Before every primary wheel spin, a top slot located directly above the wheel spins at the same time. This mini two-reel slot generates a random multiplier and links it to among the wheel sectors (either a number or a perk game).

If the primary wheel stops on the segment that matches the leading slot outcome, and a multiplier was connected, that multiplier is used to the win. If the multiplier arrive on a reward game, it increases all the multiplier values inside that particular perk round, paving the method for huge prospective payments.

2. Money Hunt

3. Pachinko
