As soon as wagering closes, the live host spins the huge wheel. All at once, a separate two-reel slot positioned above the primary wheel-- called the **Top Slot**-- spins along with it.

The Top Slot Mechanism

Before the wheel stops, the Top Slot produces a random multiplier and assigns it to among the 8 wagering choices on the wheel.

- If the Top Slot multiplier and the wheel result line up on the exact same segment, the multiplier uses to that win.

- If the result is a perk video game, the multiplier enhances all the multipliers *inside* that specific benefit round, resulting in potentially astronomical payments.

1. Coin Flip

The most basic of the 4 bonus offers, this round features a coin with a red side and a blue side.

- Each side is assigned a random multiplier before the flip.
- The host presses a button to turn the coin, and whichever color lands face-up awards the matching multiplier to the gamer's bet.

- When time goes out, all symbols reveal their covert multipliers, and the player wins whatever worth they shot.

3. Pachinko

Inspired by the standard Japanese arcade video game, Pachinko includes a large wall filled with physical pegs.

- The host drops a puck from the top of the board.
- The puck bounces randomly down the pegs till it lands in one of the slots at the bottom, which includes a multiplier.
- If the puck lands in a **"DOUBLE"** slot, all multipliers on the board double, and the puck is dropped once again for an even bigger payout.

4. Crazy Time

The crown jewel of the video game. When activated, the host opens a red door leading into a surreal, brightly colored virtual world featuring an enormous, 64-segment mega-wheel.

- Players should choose among three flappers: **Green, Blue, or Yellow**.
- The host spins the wheel, and the flapper the gamer picked determines their reward.
- This wheel includes **"DOUBLE"** and **"TRIPLE"** sectors. If the flapper indicate one of these, all multipliers on the wheel multiply, and the wheel spins once again-- enabling wins to scale up to the video game's maximum cap of 500,000 x!
