What is the Aviator Game?

Developed by Spribe, Aviator is a social multiplayer crash game. The core idea is stealthily easy: an aircraft removes, and as it ascends, a multiplier boosts. The player's objective is to cash out their profits before the plane unexpectedly flies away (crashes). If you squander in time, you win your stake multiplied by the present coefficient. If the aircraft flies away before you cash out, you lose your bet.

Unlike conventional slots governed strictly by spinning reels, Aviator gives players a sense of control. You choose when to lock in earnings, making the gameplay extremely psychological and thrilling.
