Understanding the Top Slot and Multipliers

Before every spin of the primary wheel, a smaller two-reel slot machine located straight above the wheel-- understood as the **Top Slot**-- spins concurrently.

- **How it works:** The Top Slot produces one random wheel section (a number or a bonus offer video game) and pairs it with a random multiplier varying from 2x to 50x.

- **The Result:** If the main wheel arrive at the specific segment shown in the Top Slot, the multiplier is used to that spin. If it is a number bet, the payout is multiplied. If it is a benefit video game, the multipliers within the bonus round are improved accordingly.

The Four Crazy Time Bonus Rounds

1. Coin Flip

- **Gameplay:** The screen displays an enormous board featuring 108 random multipliers hidden behind shooting gallery signs (like a duck, a cactus, or a target). Gamers are provided a restricted time to aim and fire a cannon at a symbol of their choice to expose their multiplier.

- **Gameplay:** A glowing puck is dropped from the top of an enormous Pachinko wall filled with pegs. The puck bounces down arbitrarily till it lands in one of the slots at the bottom, each including a multiplier. If the puck lands on a "DOUBLE," all multipliers on the board double, and the puck is dropped once again.

- **Gameplay:** Players step behind a red door into a dynamic, surreal virtual world featuring an enormous 64-segment wheel. The host chooses one of 3 flappers (Green, Blue, or Yellow).
