1. **Place a bet** (or two bets all at once) before the round begins.
2. **See the airplane remove**, accompanied by a multiplier that begins at 1.00 x and increases rapidly.
3. **Squander** before the plane flies away (crashes).
4. If a player squanders effectively, they win their stake multiplied by the existing value. If the airplane flies away before they squander, the bet is lost.

The unpredictability of when the plane will fly away-- ranging from 1.00 x to theoretically infinity-- creates a high-stakes environment driven by timing and nerve.
