At its core, Crazy Time is a live game show constructed around a massive, vertically installed 52-segment wheel. Hosted by an energetic, live speaker, the video game occurs in a vibrantly colored, Willy Wonka-esque studio. The primary goal is simple: gamers put bets on which section the wheel will stop on.

If the wheel stops on that segment and the perk or payment is activated, the multiplier is applied, resulting in possibly huge payouts.

The Four Exciting Bonus Rounds

The primary destination of Crazy Time is its 4 benefit functions. Activating among these mini-games shifts the player from the main studio into an interactive digital world.

1. Coin Flip

The simplest of the four bonuses. A coin with a red side and a blue side is tossed immediately by a machine. Before the flip, multipliers are randomly appointed to both sides of the coin. Whichever color lands face up wins the gamer that assigned multiplier.

2. Cash Hunt

This bonus game resembles a digital shooting gallery. A massive screen displays 105 random multipliers hidden behind numerous signs (like a cactus, a target, or a chef's hat). Gamers are given a cannon crosshair to aim and fire at a symbol of their option before a countdown timer expires. As soon as time runs out, all signs expose their concealed multipliers, and the player collects the one they shot.

3. Pachinko

Influenced by the standard Japanese arcade video game, this round features a radiant Pachinko wall filled with physical pegs. The speaker drops a puck from the top of the board, and it bounces arbitrarily down the pegs until it lands at the bottom in among several multiplier slots.

- **Unique Feature:** If the puck lands in a "Double" slot, all multipliers at the bottom of the wall double, and the puck is dropped again for an even larger reward.

4. Crazy Time

The ultimate benefit round. Players pass through a red door into a surreal, giant virtual world including a huge 64-segment wheel. Each player needs to choose one of 3 flappers (Green, Blue, or Yellow). The presenter spins the wheel, and whichever segment the selected flapper indicates is the prize.

- **Special Features:** Like Pachinko, this wheel includes "Double" and "Triple" sectors. If a flapper arrives at one of these, the multipliers on the wheel boost, and the wheel is re-spun, paving the way for the video game's optimum advertised payment of 160,000 x your bet.
